

Help Fight South Africa's Cancer Crisis

Support the **#CountMeIn** Campaign today!

Visit **www.livingwithcancersa.co.za**
or scan the QR code below to register on
**South Africa's FIRST patient-led
cancer registry.**

Upload your cancer details and help
#CloseTheCareGap.

SCAN HERE

Why Register?

South Africa is expected to see a 78 % increase in cancer incidence by 2030.¹

South Africa is facing a cancer crisis, and we are proud to be the country's first database of cancer patients.

Planning cancer services and allocating resources requires the availability of relevant, recent, and reliable data. By registering today, you can help #CloseTheCareGap and:

- Further cancer research
- Play your part to alleviate the South African cancer crisis
- Enable us to provide cancer warriors with a reliable, innovative research centre throughout the cancer journey.

Living With Cancer is a non-profit organisation that provides a **secure platform** where South African cancer warriors can **capture, track, and share** their cancer journeys.
